

Maximize your project research and business development efforts.

- :: Stop sifting through hundreds of bid opportunities and reams of project information for the handful of alerts that fit your company's capabilities.
- :: Start getting actionable information tailored to your company's interests and capacities, along with project information not captured by leading construction industry data providers.
- :: Access your own secure, online business development site that enables you to identify the projects important to you, and that automatically updates those projects with the latest data.

LiUNA!

Feel the Power

*Bringing Laborers and
Signatory Contractors
Together*

THE LECET BUSINESS ADVANTAGE

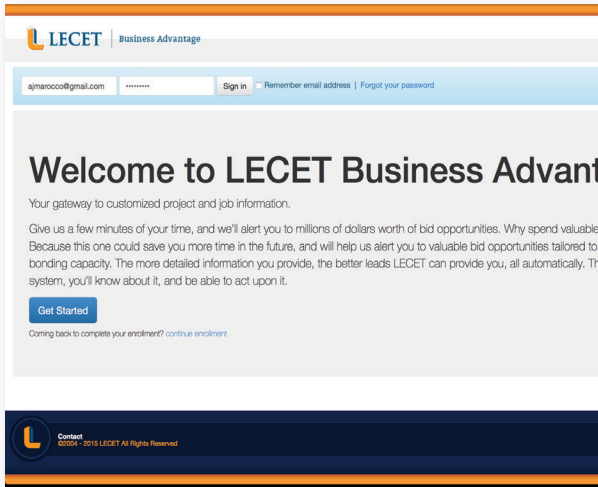

YOUR PROJECT ALERTS...
YOUR WAY

A SOLUTION TO PROJECT
INFORMATION OVERLOAD

Laborers-Employers Cooperation and Education Trust

Business Advantage

How It Works:

Go to [HTTP://LBA.LECET.ORG](http://LBA.LECET.ORG)

As a LIUNA signatory contractor in good standing, you will complete a simple company profile that includes:

- :: The locations in which you work.
- :: The size of projects on which you want to bid.
- :: The type of work you perform.

Once a week, the LBA will automatically take project information from leading data providers, filter it through your profile, and send you only the information that matches your bid interests.*

*Participation in the LBA is subject to LIUNA Regional Manager approval.

Give us a little information about your company and we will give you a world of opportunities.

LIUNA & LECET offer qualified signatory contractors a powerful new tool with which to pursue projects and jobs:

The LECET Business Advantage (LBA)

- :: Project alerts tailored to your location, type of work, and desired project size.
- :: Secure, online alert management + project monitoring.
- :: Business news tailored to your interests.

Projects that the others miss:

LIUNA & LECET can also use LBA to find contractors that meet certain qualifications and alert them to bid opportunities not captured by construction industry data services. So when we hear of something of interest to you, you will hear about it too.

SECURE, ONLINE ACCESS

LBA users can access the contractor portal of LECET's Market Expansion Program to view their profiles, receive industry news tailored to them, monitor and manage project alerts, and research specific markets.
