

# The **LIUNA!** Advantage

## Health & Safety

Safe workers and safe work sites increase productivity, reduce costs, and save lives. LIUNA makes this easy and affordable by working with its signatory contractors on a wide range of health and safety issues through the Laborers' Health & Safety Fund of North America (LHSFNA).

The LHSFNA offers an array of services designed to enhance contractor competitiveness and protect the health and safety of laborers and their families.

**Customized Site Safety Plans and safety training** reduce accidents, injuries and workers' compensation costs.

**On-Site Safety Assistance** helps contractors solve difficult safety problems and eases contractor compliance no matter what the project.

**Innovative Research** helps prevent occupational illnesses and injuries.

**Publications and Model Programs** for a myriad of topics related to on-the-job safety, personal wellness and tailgate safety meetings educate and empower laborers.

**Wellness & Employee Assistance Programs** maintain a healthy and productive workforce through screenings, counselings, incident debriefings, and more.

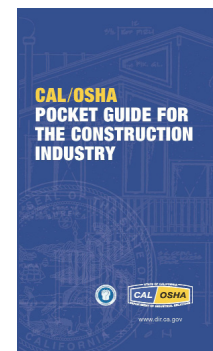

Contractors who work with LIUNA get well-trained, highly skilled laborers plus programs and services that make them safer and more competitive.

*That's the LIUNA Advantage.*
