

The **LIUNA!** Advantage

Cooperation & Partnership

To help employers compete and grow, LIUNA has partnered with its signatory contractors to create an entire organization devoted to advancing common market-related issues, expanding market share and securing projects and jobs. This partnership is known as the Laborers-Employers Cooperation and Education Trust Southwest (LECET Southwest).

LECET Southwest provides many valuable services, tools, and resources that LIUNA Local Unions, District Councils and Regional Offices and their signatory contractors can use to help increase market share and win projects and jobs.

Project Tracking and Alerts notify Laborers and contractors of upcoming project and job opportunities.

Marketing & Communication Programs promote Laborers, their employers, and the value of union construction to government agencies and developers.

Industry Research on project information, corporate intelligence and construction markets provides leading edge information.

Contractor Database of LIUNA signatory contractors helps to make business connections.

Local Contractor Forums bring Laborers, their contractors, and owner representatives together to share ideas and information about the industry and to find creative and productive ways to work together.

Contractors who work with LIUNA get well-trained, highly skilled laborers plus an organization devoted to helping them grow.

That's the LIUNA advantage.
