

The **LIUNA!** Advantage

Industry Resources

The Laborers' International Union of North America (LIUNA) provides more than manpower. LIUNA offers resources that bring complete value to the construction process and help owners and contractors keep their projects on time and on budget.

Training & Apprenticeship are the cornerstones of LIUNA. The Laborers provide more than 200,000 hours of training every year in California by offering more than 100 different courses and multiple apprenticeship programs at campus classrooms and through the use of mobile training units.

Health & Safety programs increase productivity, reduce costs and save lives. By working with employers, LIUNA offers customized safety plans, on-site assistance, model programs, and wellness and employee assistance resources to keep jobsites safe.

Workers' Comp/ADR resolves disputed claims sooner and delivers significant benefits to contractors and their employees. ADR eliminates delays, minimizes litigation, provides premium credits, and improves access to medical treatment.

Fair Contracting promotes a level playing field through compliance with public construction laws. Prevailing wage and other bidding laws provide awarding agencies and taxpayers quality construction in an environment of trusted competition between qualified bidders.

Industry Advocacy and legislative expertise at the local, state, and federal levels ensures the passage of laws, policies and funding to build and maintain California. LIUNA partners with industry allies, neighborhood groups and others to create a powerful and unified grassroots voice to improve local communities.

Partnership through local forums and outreach programs help to maximize contractors' knowledge of project opportunities. LIUNA markets projects notices to more than 2,000 qualified bidders.

LIUNA and its employers can help build your next project safely, on-time and under budget. *That's the LIUNA advantage.*
